

MARISK Talks Market Risk at EuroFinance Conference in Abu Dhabi

Derivative advisory firm speaks openly on the use of derivatives

Abu Dhabi, UAE; March 30, 2011: The EuroFinance Middle East Trade, Treasury and Cash Management Conference held March 15-16 in Abu Dhabi was an excellent opportunity for MARISK to spread the word about their capabilities in providing derivatives advisory services in interest rate, foreign exchange and commodity. Dany Masri, Managing Director of Marisk Consultants convened to speak on the need for advisors in the derivatives space, and how companies and other businesses benefit from a third party firm.

Mr. Masri added, "We are very pleased to be associated with EuroFinance and this great event. It's always nice to meet up with clients and colleagues from across the Middle East."

Working with Marisk provides clients with an insider on all derivative transactions. No longer are clients at the mercy of the derivative counterparty. Transparency and structuring that was once only available for corporations with dedicated derivatives professionals in their finance departments is now available to companies and organizations of all sizes.

About MARISK:

Marisk is an independent risk management advisor specializing in helping businesses manage their market risk. Foreign Exchange, Interest Rate, Commodity. We provide our clients access to hedging sophistication typically only found at the largest banks. We utilize real-time market data, industry standard pricing models and analytics to provide clients with accurate and transparent pricing, facilitating real-time auctions or counterparty negotiations. Marisk's approach is to offer a high level of comfort and trust with our clients, acting as an additional resource for their finance team and allowing our clients to focus on their core business. Marisk was founded in response to the soaring demand for independent risk assessment, structuring, pricing and execution advice for derivatives transactions. We provide market expertise and negotiating power on the client's behalf so that they get better pricing and execution without any conflicts of interest. If you enter into or terminate a derivatives contract and wonder whether you are getting a fair price, Marisk can help determine the answer. Go Beyond Derivatives, Think Marisk.
